- 1 Reasons for granting permission. [Delegated]

The proposed new stone paving is of an appropriate design by virtue of detailed design and materials, which would preserve the character and appearance of the host building and the conservation area. Due to the nature of the proposed works, they would not harm the amenity of any adjoining residential occupiers in terms of loss of outlook or privacy.

Whilst the development will have some impact in terms of introducing nosing features, such works in this location are not considered harmful to the character or appearance of the host building, the street scene or the Bloomsbury Conservation Area because given their minor nature.

No objections have been received. The sites planning history and relevant appeal decisions were taken into account when coming to this decision.

Special regard has been attached to the desirability of preserving the listed building or its setting or any features of special architectural or historic interest which it possesses. Considerable importance and weight has been attached to the harm and special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.66 (LB's) and s.72 (CA's) of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2015; and paragraphs 14, 17, 55 -66 and 126-141 of the National Planning Policy Framework.
