Proposal Variation of approved plans in relation to conditions 3
Objection Yes

Observations

The original proposal at this address, 2012/4009/P was objected to by six parties including the Elsworthy CAAC and the Elsworthy Residents Association. Despite the objections permission was granted. However the permission was flouted by the fact that the landscaping described was never carried out with the result that the front garden was entirely paved and two cars, not one, have been constantly parked on it. This new application shows parking for one car but still with minimal landscaping. The introduction of an artificial patch of grass does not meet the standard of the Elsworthy Conservation Area and the original design for trees in planters has not been reinstated. Originally the permission was for grass and/or flower bed and we would urge Camden to revert to this original permission, if necessary serving an enforcement notice.
