Project
**14 ELDON GROVE
LONDON NW3**

Temporary Shoring To Each Pit

Press trench sheets into ground alternating with excavation on three sides. Keep strutting frames in place at all times and use to guide sheets. Backfill any voids behind sheets with granular material.

Use "Standard Lap" trench sheets (as defined by Tata Steel) 300 wide x 3.4 thick x 35 profile x 2000 long

Prop against sacrificial cementitious back shutter

Use 100 x 75 min size timber walings each side

Use mini screw props side to side and tighten against waling beams.

Ensure trench sheets extend 250 below base of excavation. Blind base immediately on completion of excavation.
