2015/3049/P	stella tillyard	26 Wilmington Sq WC1X 0EG	29/06/2015 13:33:44	INT	<p>I would like to object to this application on three grounds: 1. density. 2. aesthetic. 3. loss of workshop and historic space.</p> <p>1. density. This area is very densely inhabited and will become much much more so with the Mount Pleasant site. More - very small - housing units will add to this density without any additional services being proposed. This is not what the area needs. The units are very small and ungainly.</p> <p>2. aesthetic grounds. This scheme is poorly designed. Basement works will be noisy, potentially cause damage to the adjoining buildings. Does Camden really want to allow troglodytic conditions for its citizens? The historic outline of the building should be preserved.</p> <p>3. At present this building houses several small businesses. Where do the developer and the council propose such businesses go? Is no one actually to work in the borough?</p> <p>3.</p>
