

I am emailing to object to the application for the above.. I have looked at the 3 areas on the Camden planning website. Near the street is no problem but I object to the other areas.

The reasons are my property over looks this area and the property has unsightly garages, with very bright lights. New trees were planted and I have waited 2-3 years for them to grow to cover up to this area.

Also there is large amounts of building materials stored openly in this area and I don' t want to look at this from my window. the trees cover some of these unsightly building materials.
