

SUPPLEMENTARY INFORMATION FORM

1. Site details

Site Name	Centenary House	Site Address	98 Camden High Street, London, NW1 7JY
NGR	529085/183690		
Site Ref Number	CMN064	Site Type ¹	Rooftop

2. Pre Application Check list

Site selection

Was an LPA mast register used to check for suitable sites by the operator or the LPA? if no explain why	Yes	
Was the industry site database checked for suitable sites by the operator? if no explain why	Yes	

Annual roll out consultation with LPA

Date of last annual rollout information/ submission	Autumn 2014
Name of contact	Chief Planning Officer
Summary of outcome/Main issues raised	

Pre-application consultation with LPA

Date of written offer of pre-application consultation	
Was there pre-application contact	No
Date of pre-application contact	
Name of contact	
Summary of outcome/Main issues raised This is an upgrade of an existing site and therefore it was not considered that preconsultation was necessary.	

¹ Macro or micro

10 Commitments Consultation

Rating of Site under Traffic Light Model		Green	
Summary of outcome/Main issues raised.			

School/College

Location of site in relation to school/college (include name of school/college) The Cavendish School, 0.12 miles
Outline of consultation carried out with school/college (if relevant). (include evidence of consultation) not applicable
Summary of outcome/Main issues raised not applicable – upgrade of existing site

Civil Aviation Authority/Secretary of State for the Defence/Aerodrome Operator consultation (only required for an application for prior approval)

Will the structure be within 3km of an aerodrome or airfield?		No
Has the Civil Aviation Authority/Secretary of State for Defence/Aerodrome Operator been notified		No
Details of response:		

Developer's Notice (only required for an application for prior approval)

Copy of Developer's Notice enclosed	Yes	
Date served	06/07/2015	

3.0 Proposed Development

The proposed site:
Centenary House, 98 Camden High Street, London, NW1 7JY

Enclose map showing the cell centre and existing sites within the cell and adjoining cells
Not applicable, upgrade of an existing site.

Type of Structure (e.g. tower, mast, etc):	
Rooftop site	
Overall Height: approx. 18.5 metres	
Height of existing building (where applicable)	n/a
Equipment Housing	
Samo cabinet at rooftop level	
Materials (as applicable)	
Tower/mast etc – type of material and external colour	STEEL
Equipment housing – type of material and external colour	STEEL

Reasons for choice of Design
Upgrade of an existing site

4.0 Technical information

<p>ICNIRP Declaration attached</p> <p>ICNIRP public compliance is determined by mathematical calculation and implemented by careful location of antennas, access restrictions and/or barriers and signage as necessary. Members of the public cannot unknowingly enter areas close to the antennas where exposure may exceed the relevant guidelines.</p> <p>When determining compliance the emissions from all cellular operators on the site are taken into account.</p>	Yes	
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----	--

Frequency	GSM 1865.5-1846.5 MHz
Modulation characteristics ²	GMSK & UMTS
Power output (expressed in EIRP in dBW per carrier)	56 dBm
Height of antenna (m above ground level)	17.8 metres to mid-height of antennas

5.0 Technical Justification

Enclose predictive coverage plots.

Reason(s) why site required e.g. coverage, upgrade, capacity (map attached if required)
Upgrade of an existing site.

² The modulation method employed in GSM is GMSK (Gaussian Minimum Shift Keying) which is a form of Phase Modulation.

The modulation method employed in UMTS is QPSK (Quad Phase Shift Keying) which is another form of Phase Modulation.

SITE SELECTION PROCESS – ALTERNATIVE SITES CONSIDERED AND NOT CHOSEN

Site ³	Site Name and address	NGR	Reason for not choosing ⁴
N/a upgrade			

If no alternative site options have been investigated, please explain why
n/a upgrade of an existing site

³ ETS - Existing Telecomm site, ES - Existing Structure, RT - Roof Top, GF - Greenfield

⁴ SP - Site Provider, RD - Redevelopment Not Possible, T - Technical Difficulties, P – Planning

O – Other
