

Please could you let me know what is happening with this application which I believe should have been refused without ado.

There are many many residents who are sorely missing the Albert and its garden and I urge you to come to the right and fair conclusion as soon as possible and reject the application to build a house in its garden.

As a nearby resident I would also like to complain about the terrible disruption the existing works have been causing - both in gritty dust and noise.

Further to my earlier objection to the application to build a house in the garden of the Albert Pub, I strongly object to the petition document which the owners claim supports the application to build a house.

I am certain that most of the people (certainly any of the locals) who signed this document were misled - they were under the impression that it was a petition to Save The Albert Pub and Garden rather than a document in support of the building over and loss of garden.

It is nonsense of course, to say it will make the pub more economical by building over half the garden, which requires minimum maintenance and with its additional table space brings in more revenue to the pub. It will in fact negatively affect the viability of the pub to lose such a considerable amount of seating space.

I believe this misleading document which uses people's names for purposes other than they were intended should be disregarded at least.

Yours sincerely,
