Cycle spaces	0	12	12						
Other (e.g. Bus)	0	0	0						
Short description of Other									
11. Foul Sewage									
Please state how foul sewage is to be disposed of:									
	Package treatment plant	Unknown							
<u></u>	-								
Septic tank	Cess pit								
Other									
Are you proposing to connect to the existing drainage s	ystem? • Yes	No Unknown							
If Yes, please include the details of the existing system or	n the application drawings and state	e references for the plan(s)/drawing(s):							
Not available at time of application.									

12. Assessment of Flood Risk							
Is the site within an area at risk of flooding? (Refer to the Environment Agency's Flood Map showing flood zones 2 and 3 and consult Environment Agency standing advice and your local planning authority requirements for information as necessary.) Yes No							
If Yes, you will need to submit an appropriate flood risk assessment to consider the risk to the proposed site.							
Is your proposal within 20 metres of a watercourse (e.g. river, stream or beck)?							
Will the proposal increase the flood risk elsewhere? Yes No							
How will surface water be disposed of?							
Sustainable drainage system Main sewer Pond/lake							
Soakaway Existing watercourse							
13. Biodiversity and Geological Conservation							
To assist in answering the following questions refer to the guidance notes for further information on when there is a reasonable likelihood that any important biodiversity or geological conservation features may be present or nearby and whether they are likely to be affected by your proposals.							
Having referred to the guidance notes, is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, OR on land adjacent to or near the application site:							
a) Protected and priority species							
Yes, on the development site Yes, on land adjacent to or near the proposed development No							
b) Designated sites, important habitats or other biodiversity features							
Yes, on the development site Yes, on land adjacent to or near the proposed development No							
c) Features of geological conservation importance							
Yes, on the development site Yes, on land adjacent to or near the proposed development No							
14. Existing Use							
Please describe the current use of the site:							
Please describe the current use of the site: Single family dwelling house							
Please describe the current use of the site: Single family dwelling house Is the site currently vacant? Yes No							
Please describe the current use of the site: Single family dwelling house							
Please describe the current use of the site: Single family dwelling house Is the site currently vacant? Yes No Does the proposal involve any of the following? If yes, you will need to submit an appropriate contamination assessment with your application. Land which is known to be contaminated? Yes No							
Please describe the current use of the site: Single family dwelling house Is the site currently vacant? O Yes No Does the proposal involve any of the following? If yes, you will need to submit an appropriate contamination assessment with your application. Land which is known to be contaminated? Yes No Land where contamination is suspected for all or part of the site? Yes No
