3. Description of the Proposal

Please describe the proposed development including any change of use:

We are proposing to create an extension to the side of the property infilling the missing block at ground floor level only. The front of the property, which faces the street, will remain unchanged.
 The extension will provide space for a new bedroom with ensuite as well as more of a generous entrance lobby by the front door, as opposed to entering directly into the kitchen.
 The existing conservatory will remain in position but executed with a much more common language colloquial to the building. The rear elevational will be rationalised with similar dimensioned panels which will restore the buildings 'rhythm' either side of the 'solid block'. Light will penetrate straight into the bedroom and communal spaces via the expansive glazed north facing fenestration

Has the building, work or change of use already started? Yes No
