2015/0271/P	Tom Gray	65 Camden Mews London NW1 9BY	09/07/2015 11:53:56	OBJ	I would like to object to this application. The loss of B2 usage will continue to erode the mixed use nature of the Mews which is a positive feature. The proposed design is of poor quality, represents overbearing overdevelopment of the site, is clearly intended to maximise occupancy numbers with scant regard for living conditions.
