2015/2976/P	Richard Wade	16 Abingdon Close Camden Square London	07/07/2015 23:24:37	COMMNT	Ever since I moved to Camden over 20 years ago, Camden Bus have been an integral part of making buying a property in Camden possible at all. Their set-up in a bus is just a small part of what makes them unique, yet is a unique part of the fabric of Camden too(which is all too quickly disappearing). The plans look like they will make one of Camden's most appealing / unique structures more permanent and more practically useable. Hopefully this will go ahead and Camden Bus will be able to serve me and the upcoming community of Camden for another 20 years, whilst keeping in Camden what it is: fresh, unique and different (and more importantly stuff which is not "copied" anywhere else !!).
2015/2976/P	carol haigh	diocese of westminster st josephs	09/07/2015 19:19:00	COMMNT	the development plans need to be reviewed. a copy letter attached sent to env.devcon@camden.gov.uk
2015/2976/P	Elena Acciarri	135 Arlington Road London NW1 7ET	08/07/2015 11:55:02	COMMNT	I am a resident of Arlington Road, a little further down the road from the Camden Bus Estate Agents and I support this application. I consider that the proposed new glass structure to contain the entire bus will be a simple elegant solution that will tidy up this area, whilst retaining the interest of the old bus which is very popular with passers-by and is regarded as a local landmark. It will also have the advantage that the current external entrance steps will be removed – currently people frequently sit on these steps to eat and drink, leaving rubbish behind.
2015/2976/P	Debora Byrne	177 arlington road	07/07/2015 21:06:59	SUPPRT	Camden Bus has been a well-loved Camden Town landmark for almost thirty years and this new design will protect it from the elements and preserve it for evermore. Small independent business like Camden Bus are what makes out area interesting and enjoyable to live in. I wholehearted support my neighbour's application.

2015/2976/P	LenStassi	57 Mayford Oakley Square London NW1 1NX	07/07/2015 00:08:18	SUPPLETTER	<p>Dear Camden Planning,</p> <p>I am writing in support of the application to construct the glass enclosure and the formation of extra space beneath the “Camden Bus” for the following reasons:</p> <p>1 - The bus has been in this location for very many years and has become very much an established part of the character of the local area. The awards the bus has gained, including from Camden Council, speak for themselves. The proposed enclosure effectively protects this old 1940s historic Routemaster bus, currently at the mercy of the elements, from the real risk of deterioration and loss.</p> <p>2 - The bus provides a high degree of visual amenity and is now very much a part of the culture and heritage of the central Camden area, visually pleasing, and, whilst even being a tourist attraction, also aids the local economy.</p> <p>3 - In my view, the proposed protective enclosure is subtle and has been empathetically designed both for the bus and the street scene and effectively places it in a box. The bus, within its “new box” can then also be viewed as and even resemble a collector’s life-size antique die cast metal toy vehicle kept pristine in its new transparent fronted container for the public to admire.</p> <p>4 - The enclosure and associated proposed basement will in my opinion have a positive impact in what is already a unique and eclectic part of London in what is an area with a unique collection of structures such as the Art Deco Greater London House, The Crowndale Centre, Stables Market (with its mix of older and modern structures), Sainsbury’s Supermarket, The World’s End Pub, The Roundhouse, The Glass House/Building and the Gilgamesh restaurant.</p> <p>5 - The proposed glass enclosure for the preservation of the bus and the associated proposed basement are also in line with Camden’s Article 4 Directions (the Direction made on 07th October 2014 - on land known as “Article 4 Direction Area 1” - Delineated 1A) for the preservation and protection of commercial uses in the Borough. The application for the glass enclosure etc. in this instance actually enhances the spirit of this Direction.</p> <p>6 - The enlargement of the internal volume of the space whilst having minimal impact on the external surface area will also allow the applicants to enlarge their space and even create local jobs which will be synergistic both to the council and the local area.</p> <p>7 - The proposed enclosure will also help secure for the future the use class of this long established very unique and niche estate agency that has actually become synonymous with Camden Town.</p> <p>Yours faithfully Len Stassi London NW1 1NX</p>

2015/2976/P	katy horwood	flat 6 155 Arlington road london nw1 7et	03/07/2015 21:05:52	NOBJ	As a resident of Arlington road, I would like to put forward my enthusiasm and approval for the plans for the Camden Bus - I think the bus itself has become iconic in the area and should be maintained and preserved as such. I am excited to see that there are plans being put forward to restore it too and the redesign of the glass frontage to protect it. As a child i went to the Cavendish school and living so close to the bus as an adult, pass it everyday with my daughter - it has been a constant feature of camden life for as long as I can remember and I'd really like to see it remain so! Arlington road is a residential street but the camden bus poses no disruption to the street whatsoever, quite the opposite, it adds character and charm to the area and, to my mind, serves as a positive part of a local community. I whole-heartedly support the plans.
