2015/3220/P	Rae Fether	110 Chetwynd Road NW5 1DH	12/07/2015 18:42:21	AMEND	<p>The replacement shopfront to match others in the street is welcomed.</p> <p>However the matter of level access should be clarified; the existing shopfront has a step (see front elevation photo) and as a wheelchair user this has prevented my access to this shop. The Design and Access Statement misleadingly says: "the level entry doorway to this unit is to be retained.." Please can there be a clear annotation on the proposed plan that there is level access. Retaining the existing floor level will result in a step.</p> <p>The fact that there is no step shown on the plan is no assurance that there will be no step in reality as happened at 56 Chetwynd Road, 2013/6745/P where a 6" step appeared at the entrance that was not shown on plan.</p>
2015/3220/P	Anna Sullivan	Flat 2 124 Fortess Road	11/07/2015 20:53:54	COMMEM AIL	<p>Notification letter dated 2nd July received 10th July; proposed works already carried out.</p> <p>While new door and windows enhances character, loss of original blue ceramic tiles and the over-painting in grey of the few remaining is detrimental to the character. It's a shame to lose historic fabric for the sake of a side window into the mews.</p>
