2015/2860/P	Phil Thornton and Kim Issroff	8 Lisburne Road	12/07/2015 18:55:10	OBJ	We object to this as we do not want this development to overlook our garden. We do not know from the documents online if the roof of the extension will be used. This would enable the residents to see into our garden which we do not want. We would like a condition attached that the area above the extension is not usable space. These houses have enough living space without two storey extensions. We don't know what is referred to as the lower ground floor on the proposal.
