To The Planning Department

Dear Vicky Wemyss-Cooke

With reference to 2015/3312/P

This revision is of design directly effects 28 flats as these will be disturbed by considerable noise and will also make the proposed hall un-useable to the residents thereby rendering it as a total waste of resources.

As this planning application was registered incorrectly on the 16 June 2015 in the Planning Register as it incorrectly states the location. It is registered as being New North Street. It should have been Tybolds Close and a separate application for the Old Gloucester Street. Falcon Hall, change. Also as there was no consultation with those affected the Residents of Falcon and the residents and properties on the opposite side of the road.

As this Planning Application Amendment is incorrectly presented and no consultation was made to those affected it can not stand

It is also to be noted that the person making the application has a history of dishonest practice in the past in relation ship to other planning and Local Government activities. All applications made by this person should be fully scrutinised by the Development Control Committee applications should remain provisional for at least 1 year.

We the representatives of the Tybolds Close Estate would like to make a representation to the Planning Committee regarding this application and any subsequent applications By Camden Housing Department regarding the Proposed Redevelopment of the Tybolds Close Estate.

[2013/1014/P](#) Tybalds Estate New North Street London WC1N

To prevent such a blatant fraud being attempted again.

Yours Sincerely

Tony Coates
