

- TX Tree Number
- Proposed layout
- Construction exclusion zone (CEZ) to be protected by fencing and/or ground protection
- Precautionary area

Root protection area (RPA) where special precautions are required when removing or upgrading the existing surfacing and installing a new cycle store.

A barrier will be erected around the trunk of the tree to protect it from any accidental vehicle damage. Sufficient space will be provided for pedestrian access along the pavement.

No changes are intended for the pavement surface so this area will provide adequate ground protection for the tree.

Tree protection plan
 Location of trees & protection/management proposals at
 4 Augustine's Road, Camden, London
