THE CODE FOR SUSTAINABLE HOMES

FINAL CERTIFICATE

(Issued at the Post Construction Stage)

Certificate Number: BRE-00029140-PC-001-00-0007

Score: 77

What Your Code Star Rating Means

Combined Score	36-47	48-56	57-67	68-83	84-89	90-100
Stars	1	2	3	4	5	6

The Code for Sustainable Homes considers the effects on the environment caused by the development and occupation of a home. To achieve a star rating, a home must perform better than a new home built to the minimum legal standards, and much better than an average existing home.

How this home scored			What is covered in the category									
Category	Percentage of Category Score attained	Percentage of Category Score attained										
		10		20	30	40	50	60	70	80	90	100
Energy	63											Energy efficiency and CO ₂ saving measures
Water	83											Internal and external water saving measures
Materials	54											The sourcing and environmental impact of materials used to build the home
Surface Water Run-off	75											Measures to reduce the risk of flooding and surface water run-off which can pollute rivers
Waste	100											Storage for recyclable waste and compost, and care taken to reduce, reuse and recycle construction materials
Pollution	25											The use of insulation materials and heating systems that do not add to global warming
Health & Wellbeing	100											Provision of good daylight quality, sound insulation, private space, accessibility, and adaptability
Management	100											A Home User Guide, designing in security, and reducing the impact of construction
Ecology	88											Protection and enhancement of the ecology of the area and efficient use of building land

Further detailed information regarding The Code for Sustainable Homes can be found at www.communities.gov.uk/thecode

The CO₂ rating is a measure of a home's Carbon Dioxide (CO₂) emissions. This rating is shown on your Energy Performance Certificate as the Environmental Impact Rating. This Certificate is available from the seller, and also includes information on how you can improve the home's performance.

The Code measures the sustainability of a home as a complete package, and takes into account other aspects of energy use as well as wider sustainability issues, such as water and waste.

The CO₂/Environmental Impact Rating is shown here for information only and does not form part of The Code for Sustainable Homes. Neither BRE Global nor the assessment organisation is responsible for the accuracy of this number.

This certificate remains the property of BRE Global Ltd and is issued subject to terms and conditions. It is produced from data supplied by the licenced Code assessor (a 'certified' competent person under Scheme Document SD123). To check the authenticity of this certificate, please contact BRE Global Ltd.
