2015/2811/P	Ernest Edmonds	244 Russel Court Woburn Place London WC1H 0ND	15/07/2015 21:28:56	OBJ	<p>I have two concerns.</p> <p>I object to the operating times proposed, particularly in relation to commercial use. This proposal is for use within what is otherwise a residential building and commercial use, in particular (but not exclusively) is likely to make use of the early and late hours proposed, causing considerable noise nuisance to the many occupants of the flats. My particular flat is not far from the entrance and I fear significant disturbance.</p> <p>Secondly, in an area of London particularly sensitive to the risk of explosion, I see no proper concern or control of hazardous materials that might be stored either carelessly or with terrorist intent in the facility. In a building with over 500 residents this point is of very considerable concern.</p> <p>I would like to add the point that the applicant has made no attempt at all to discuss the proposal with me or even to draw my attention to this proposal.</p>
2015/2811/P	Mrs Fegan	465 Russell Court	15/07/2015 12:34:55	COMMNT	<p>It seems that the proposed storage spaces and their internal walls will prevent access to drains, electrics, telecommunications, hot and cold water supply, and waste water drainage. This would not be acceptable.</p>
