**Response:** The CGCA had welcomed improvements to the shopfront at No. 37 (see 2014/4334/P). However, as noted in the Seven Dials Renaissance Study, which Camden has adopted and to which the applicant refers, there are additional alterations that would more closely return this shopfront to its traditional appearance, namely (1) using a brass grille as a treatment for the ventilator, and (2) removing the obtrusive flood light fittings. These current proposals do not mention the material of the grille. The CGCA emphasises that the grille should be brass.  
The CGCA also objects to the removal of the door in the shopfront of No. 37. Removing the door causes harm to this listed building and does not comply with the Seven Dials Study.
