Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 1 Reasons for granting permission.

The proposed inlet/extract flues sit well within the side roof terrace which is to be decluttered through the removal of unsightly features including the outdated extract flue erected at a much higher level.

The proposal is considered appropriate in terms of size, design, location and materials to be used and will preserve and enhance the appearance and character of the conservation area and the streetscape and will not cause harm to the setting of the listed building.

The site's planning and appeal history has been taken into account when coming to this decision. No comments were received following the statutory consultations.

The noise and odour report submitted by the applicant has been assessed by the Council's Environmental Health team and demonstrates the equipment can operate at an acceptable level.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area and special regard has been attached to the desirability of preserving the listed building or its setting or any features of special architectural or historic interest which it possesses, under s.66 and s.72 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.
