Application number 2015/3564/P  
1F Parsifal Rd  
NW6 1UG

Dear Mr Gracie

Having now ascertained the location of 1F Parisfal Road, we wish to object to the proposed work. There are two specific reasons for our objection. The first is that the work will lead to a serious diminishment of light. The second is to the dangers of a precedent being set for five-storey building. In addition we do not relish the idea of being overlooked quite so closely as the plan proposes. Given that permission for the wooden-clad extension that presently exists was built without consultation, and that necessary changes took many years to be effected, we are concerned that the Council should take these objections seriously.

Yours sincerely  
Wynn Wheldon
