2015/3148/P	Brigid Shaughnessy	20 Kylemore rd	20/07/2015 13:36:58	INT	<p>We are registered to receive email notifications of local planning applications and we WERE NOT informed about this one which is in the 'growth' area and of significant interest and concern to the local community. The submission for planning had gone ahead by stealth and such an over-sized, pushed to the limit development of a small site with 4 storey-town houses providing no affordable or moderately priced housing or benefits to anyone deserves scrutiny both by Camden planning and the surrounding community. Again the centre of West Hampstead is being exploited because there is no master plan in place and developers are 'taking the mick'. On the grounds of density, inappropriate size for site and overdevelopment generally a change of use/planning should be refused and a thorough public consultation undertaken.</p> <p>Thank you.</p>
