2015/3841/P	Can-Wah Lai	Flat C 76 Cricklewood Broadway	21/07/2015 11:24:42	OBJ	<p>Again, I am very disappointed to learn that "next door" have yet again applied for a continuation of the use of the premises as a school/mosque! This is despite the last application resulting in the decision stating that they had to move out and find alternative premises in the next 2 months or thereabouts!</p> <p>Similar to previous objections the applicants do not even abide by the conditions of use i.e. they still use the back alley as their main entrance for a huge amount of children which is clearly evident by the fact that they leave all their shoes there upon entering the back of the buiding! If they choose to leave by the front entrance in their hordes the noise travelling up to my flat is appalling hence my windows are virtually shut throughout the evenings and most of the weekends. Because the parents "drop" off their kids at the back alley you can imagine the amount of cars that have parked along Ebbsfleet Road and as such there is an issue of residents not being able to park their own cars near their own home because of the volume of parked cars in relation to 78. As a result of this the proprietors are also parking their taxis almost every day outside my building which is number 76. This clearly demonstrates the proprietors do not have anywhere near enough parking space around the area for using the 78 as both a school and a taxi rank/drop off point and I strongly object to my front entrance being used as a taxi rank despite raising this issue with the owners directly on several occasions without any change! Despite my comments I do feel my (and anyone else's) objection for that matter will be disregarded just like those raised over the years so I do feel this is a pointless exercise. I now intend to sell my property and move out to a council which actually listens and supports residents who are negatively affected by such terrible decision making. 78 Should not be used to cram a school as a school in a building which is primarily residents above a small shop adjacent to similar properties on a small part of the main road.</p>
