2015/3200/P	Nicky Jaffe	22 Redington gardens London	21/07/2015 23:17:11	OBJEMPER	the overall size and scale of the development would alter the character of Redington Gardens especially the ground floor rear extension that would extend 6 meters into the rear garden and the size is of concern as it would seemed over scaled. The basement development may affect the subsoil movement of the houses close to the boundaries.the basement development is not in conformity with the guidelines or Policy DP27 or CP G4. Please refuse
