I am strongly opposed to the proposed development due to three primary reasons:

1/ impact on green square and market area - the excessive size of the tower will have a negative impact on the much-loved green square and market area due to its shadow, winds and access issues.

2/ impact on congestion and parking - the area is already congested (especially Windesore Road) - such a large development will increase congestion.

3/ height is excessive for the area - it will stick out and break sight lines.

Furthermore, the luxury character of the development will most likely not benefit the local residents but rather wealthy foreign buyers who may only use the residences partially.
