Reason: For the avoidance of doubt and in the interest of proper planning.

Informative(s):

- 1 Reasons for granting permission.

The proposed new doors and double glazed timber windows will replace the existing mixed metal and timber single glazed windows which are in a poor state of repair and not original. This replacement doors and windows are considered to be acceptable in design terms and sympathetic to the character and appearance of the host building and conservation area. There would be no increase in glazing and thus would have no harmful impact on amenities of neighbours through additional overlooking.

The new windows and doors would match those of the adjacent property and would be in keeping with the residential nature of neighbouring properties. The changes are considered to preserve the character and appearance of the South Hampstead Conservation Area.

22 neighbours were consulted. No objections have been received. The site's planning history and relevant appeal decisions were taken into account when coming to this decision.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan March 2015, consolidated with alterations since 2011 and paragraphs 14, 17, 56-66 and 126 -

141 of the National Planning Policy Framework.
