2015/3077/P	David Miller	1 Asmara Road NW2 3SS	22/07/2015 13:17:38	INT	<p>We continue to object to this application because it changes a family house in an area of family houses into a series of flats. There will inevitably be too many cars as there are no parking spaces outside the house. Notwithstanding that there may be restrictions on the issuance of permits, residents will inevitably acquire and park cars. There are too many individual units as the developer is seeking to maximise profit rather than utility of the house.</p> <p>In addition the flat roof on the rear extension will inevitably be colonised as an outdoor space by the first floor flat overlooking it.</p>
