Informative(s):

- 1 Reasons for granting permission.

The proposed gate and fence are considered to be appropriate for the mansion block in terms of their location, scale, materials and design and will serve to preserve and enhance the character and appearance of the Fitzjohn Netherhall conservation area. Designed to match the height of their enclosing brick piers, the fence and gate will not negatively impact the visual amenity of the host building, and are in keeping with the height and form of adjacent boundaries. Constructed from timber and iron respectively, the fence and gate use materials sympathetic to their setting within the Fitzjohn Netherhall conservation area.

The proposed works are not considered to have a harmful impact on the amenity of any adjoining occupiers.

No objections were received prior to making this decision. The planning history of the site and relevant appeal decisions were taken into account when coming to this decision.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under section 72 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed details are in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4 and 7.6 of the London Plan 2015, consolidated with alterations since 2011; and paragraphs 14, 17, 56-66 and 126-141 of the National

Planning Policy Framework.
