*My enquiry is*

Good afternoon,

My neighbour has requested me to prune my pear tree. I don't think this pear tree is subject to a Tree Preservation Order, however it is located within Dartmouth Park Conservation area.

The work is reportedly urgent as the pears overhanging his property are starting to fall on the roof of his shed, risking to damage it.

The proposed work would involve reducing the width and height of the crown by 1 to 2 meters (circa 10% of the tree height).

In accordance with your emergency work on trees procedure, please contact me within 5 days if you have any comment on this proposed work.

Thanks and regards,  
Franck CHESSE
