

**FRONT SIGN:**

It gets dark during the night because the street light is not through directly because a big tree and a telephone box.

Therefore, we propose our shop sign to be illuminated but we will follow the guidance on the illuminance level which the Council permits.

**PHOTO TAKEN AT NIGHT – 114 to 119 Tottenham Court Road**

**SHUTTER AND SHUTTER BOX:**

We propose to powder coat the electric shutter with the same colour of the shop front. Therefore, it will achieve much integral look for the front.

In addition, the external roller shutter box will be replaced with the internal shutter box.
