2015/3895/P	Michele Hockley	27a Priory Terrace NW64DG	26/07/2015 12:23:16	COMMNT	In principal I am not, opposed but certain criteria would have to be met. I will be the most affected as the proposed dwelling will back directly on to my garden, I would like to know the following: how high will the building be, will it appear over my fence, if so I would not be happy to look at a permanent structure. Is it purely for someone to work during the day, if that is the case, that is acceptable but if someone would be sleeping in proposed building I would object. The garden at 32 Priory Rd is quite small and this building would probably take up the majority of the space! would you be kind enough to answer my questions.
