Your comments

- Loss of greenery and natural character; trees add natural value to neighbourhood.
- 5 trees in total (see application 2015/1602/T) are to be felled from a total of 8. The trees are healthy and pose no risk to local residents.
- All trees are mature and healthy and therefore it would be entirely wrong for a conservation area such as the one we live in, to lose such assets.
- Please oppose this application on the grounds listed above.
