hi,

i am a resident at no 24a netherhall gardens

my bedroom window will be severely compromised by these plans

i will lose outlook from my window and be looking out over a tall wall

this outlook has been enjoyed over 30 years

i will also lose light. in the winter my bedroom is dark and already i need use many lights to illuminate my room when i need to study

this plan is unacceptable

i would also like to point out that on the design and access report they talk about the building line in line with no 24a and 24 but i can see from looking out of my window that all the other properties next to no 26 on the other side ie no 28/ no 30/ no 32 etc down the street are all set back to where no 26 currently sits, so this is a misleading statement as it does not take into account the building line on the other side of the existing property.

sincerely

e. belilty
