my garden overlooks this property.
this structure is too large and cumbersome too high not in proportion too high over the level
of the fence
i do not wish to look out on it. its an invasion of my outlook. and also privacy into my
gardem
i live in a conservation area and wish to see greenery around.
i would also appreciate neighbours to appreciate their luck to live in such a beautiful area and
act accordingly to respect neighbours views out their windows.
as a parent myself, i appreciate the desire to create a nice outdoor play area for ones children
but this is for a private garden not a public park and a structure should be designed and built
accordingly.
i strongly reject this propsal.
