Telephone number..... [REDACTED].....

Planning application number..... 2015/4041/P.....

Planning application address..... 914/53 HSE, FARLETON HSE, CAMDEN HSE + 11-75 DOBSON CLOSE

I support the application (please state reasons below)

I object to the application (please state reasons below)

Your comments

We have lived in this flat since May 1966 and have seen several XRD work done to the block. However, we have never seen such a good standard of work done, as was done here a short while ago. The workmanship was of a very good standard, & has made our flats look more attractive than we have ever seen.

We cannot think why, after such a short time the Council is contemplating embarking on this scheme. No-one has complained about our flats being cold - in fact they are quite warm. Cladding would cover up all the good work done. No-one in our block, who we have spoken to, is in favour of this plan.

We feel the money could be spent on a more worthwhile project, which may be necessary. We think this plan is quite unnecessary in Dobson Close.

Please continue on extra sheets if you wish
