2015/2576/P	karen hannah	99 bartholomew road kentish town nw5 2ar	30/07/2015 11:36:01	COMMNT	i would so appreciate this being granted and i feel it is in keeping , being wooden sash windows , with the conservation area. having lived here since the 80's we have always been unable to heat this house to even a minimum standard and cope with large draughts in every room apart from the astronomical bills. this is a matter ordered under notice by environmental heath investigation. am looking forward so much being ill to a warm house.
