2015/2582/P	Christopher Follett	2A Maryon Mews South End Green LONDON NW3 2PU	30/07/2015 06:32:34	OBJ	I fear that the new Bakery on South End Road means a serious threat to our peace and quiet in houses in Maryon Mews located directly behind it. The ducts are going to be be noisy and could cause pollution, the bakery will be in action very early in the morning hours threatening people sleeping in the houses behind the bakery. Last point: it seems a mystery to me that the ugly vents and air conditioning could be erected on the roof above No 1 without planning permission or before any such planning application was made. If this bakery is to be allowed to function MAJOR sound proofing will have to be carried out.
