2015/3696/T	Keith Moffitt	59 Cholmley Gardens NW6 1AJ NW6 1AJ NW6 1AJ	30/07/2015 13:20:06	INT	<p>I live in a property overlooking the garden where the trees are to be felled, and wish to object to the proposed felling of these trees.</p> <p>The communal gardens and individual gardens of the interior of the Cholmley Gardens estate, which is an important part of the West End Green conservation area, form a harmonious whole and the piecemeal removal of trees from individual gardens risks destroying this.</p> <p>I can see no justification for the removal of these trees. The three trees and the flowering cherry in particular play an important part in softening the impact of brick walls and temporary storage areas beyond it.</p> <p>I am also concerned that the tree felling appears to form part of a "memorial project" of which the application gives no further details.</p> <p>I urge the Council to reject this application.</p>
