2015/4041/P	Amiel Ziv	44 Dobson Close London NW6 4RT	29/07/2015 18:05:07	COMMNT	I am a leaseholder in Dobson Close and strongly oppose the proposed works. The installation of insulation is totally unnecessary. It would also ruin the uniform appearance of our street as some structures would have the new exteriors and some not. I have spoken to other residents, none of them want these works! Camden Council should not impose these expensive and unwanted works against the wishes of the residents!
