Dear Ms Haji-Ismail

Ref: Application 2015/3530/P
22 Frogna Way London NW3 6XE

I am writing to you to support the aforementioned application by the San family.

I live very close to the site and walk around there often. I also attended all the meetings when the family exhibited the plans and explained their intentions to neighbours and local residents.

When the Coopers lived there I had occasion to visit the house when it was inhabited. it was constructed to meet Mrs Coopers specific disabilities. Since they have moved on it has become as eyesore due to the previous owners neglect.

The new application is lovely and considerate not only to the neighbours but also to the plot and lie of the land. The proposed green roof is delightful and will enhance the views from Church Row. It will become a very attractive modern family house and will enhance the local area.

I am totally in support of this application.

Yours sincerely

Mrs H L Sherman
