Your comments on the planning application

The building being proposed for demolition/planning application is approx 3 meters from my window where i sleep. It would be impossible to sleep if there were works that distance away. also access to the apartment i live in is directly by the entrance of the proposed planning application. also the changing of the height of the building would encroach on the sunlight i get from the windows at the rear of my property. I very much object to these plans and the effects they would have in short and long term on the building i live in.
