Dear Sir/Madam,

This letter is regarding the application by Mrs Dawson of 43 Belsize Park Gardens to remove the Sycamore tree at the back of her garden.

I am extremely concerned by this application and would like to place a tree preservation order on the tree in question. It adds a huge amount of aesthetic significance to the area and gives my house as well as many other houses on my road screening and privacy. It would be a massive loss to the community if it is removed, so I do hope you will seriously consider the detrimental impact it would have on the neighbourhood if this application is successful.
