Your comments

Representing the Carter's Educational Foundation, owners of Nos. 6 and 8 Flitcroft Street, we object to the proposed "Redesign of the Rear Extension to the Rear of no. 4 Flitcroft Street".

The approved building, consisting of Ground Floor and Basements, with flat roof and central daylight through a skylight over part of the area, would have little detrimental effect on our buildings. The proposed variation involving a steep ridge roof right up to the rear boundary of No. 6 will do significant harm to our property.

It would restrict light to the rear windows of the 2nd and 3rd floors.

In particular, it would significantly reduce the amount of light reaching the skylight which allows daylight to reach the rear of the ground floor and basement of No. 6 Flitcroft Street.

It would appear to make it near impossible to erect scaffolding to access the rear of no. 6 for painting windows or any other maintenance requirement.
