

DP12. Supporting strong centres and managing the impact of food, drink, entertainment and other town centre uses

- 12.1 Camden Core Strategy policy CS7 – *Promoting Camden's centres and shops* sets out the Council's overall strategy for our centres and associated uses. It seeks to promote successful and vibrant centres, for example by:
- designating a hierarchy of town centres, Central London Frontages and neighbourhood centres;
 - promoting new retail development at King's Cross, Euston and Camden Town, with additional retail in the growth areas at Tottenham Court Road, Holborn and West Hampstead and in existing centres;
 - seeking to protect the character and role of each of Camden's centres; and
 - resisting the loss of shops where this would cause harm to the character and function of a centre or shopping provision in the local area.
- 12.2 Core Strategy policy CS7 also seeks to make sure that the impact of food, drink, entertainment and other town centre uses on residents and their local area is minimised. This is particularly important in Camden given the borough's wide range of bars, restaurants and entertainment venues, which are concentrated in our centres and central London, areas with significant residential communities.
- 12.3 Policy DP12 below builds on Core Strategy policy CS7 and the advice contained in national Planning Policy Statement (PPS) 6 – *Planning for town centres* (and any subsequent guidance) by setting out our detailed approach to managing the impact of food, drink and entertainment uses and other uses suitable for centres. It is therefore important to refer to Core Strategy policy CS7 and PPS6 alongside policy DP12.

DP POLICY

DP12 – Supporting strong centres and managing the impact of food, drink, entertainment and other town centre uses

The Council will ensure that the development of shopping, services, food, drink, entertainment and other town centre uses does not cause harm to the character, function, vitality and viability of a centre, the local area or the amenity of neighbours. We will consider:

- a) the effect of non-retail development on shopping provision and the character of the centre in which it is located;
 - b) the cumulative impact of food, drink and entertainment uses taking into account the number and distribution of existing uses and non-implemented planning permissions, and any record of harm caused by such uses;
 - c) the impact of the development on nearby residential uses and amenity, and any prejudice to future residential development;
 - d) parking, stopping and servicing and the effect of the development on ease of movement on the footpath;
 - e) noise and vibration generated either inside or outside of the site;
 - f) fumes likely to be generated and the potential for effective and unobtrusive ventilation;
 - g) the potential for crime and anti-social behaviour, including littering;
- To manage potential harm to amenity or the local area, the Council will, in appropriate cases, use planning conditions and obligations to address the following issues:
- h) hours of operation;
 - i) noise/vibration, fumes and the siting of plant and machinery;
 - j) the storage and disposal of refuse and customer litter;
 - k) tables and chairs outside of premises;
 - l) community safety;
 - m) the expansion of the customer area into ancillary areas such as basements;
 - n) the ability to change the use of premises from one food and drink use or one entertainment use to another (within Use Classes A3, A4, A5 and D2);
 - o) the use of local management agreements to ensure that the vicinity of premises are managed responsibly to minimise impact on the surrounding area.

Contributions to schemes to manage the off-site effects of a development, including for town centre management, will be sought in appropriate cases.

- 12.4 Town centre uses include shops and markets (Use Class A1), financial and professional services (A2), cafes and restaurants (A3), drinking establishments (A4), hot food takeaways (A5), offices (B1a), hotels (C1), community uses (D1), including neighbourhood police facilities, and leisure uses (D2), and a number of other uses not in any use class (see *Other town centre uses* below). Policy DP12 will be applied to proposals for these uses, whether located inside or outside of a centre.
- 12.5 New shops, services, food, drink and entertainment uses can add to the vitality and vibrancy of Camden's centres and local areas. However, they can also have other impacts such as diverting trade and displacing existing town centre functions. As a result, the Council will seek to guide such uses to locations where their impact can be minimised. When assessing proposals for these uses the Council will seek to protect the character and function of our centres and prevent any reduction in their vitality and viability by requiring sequential assessments and impact assessments where appropriate (in accordance with Planning Policy Statement 4 *Planning for Sustainable Economic Growth*), and though implementing this policy.

- 12.6 The Council will not grant planning permission for development that it considers would cause harm to the character, amenity, function, vitality and viability of a centre or local area. We consider that harm is caused when an impact is at an unacceptable level, in terms of trade/turnover; vitality and viability; the character, quality and attractiveness of a centre; levels of vacancy; crime and anti-social behaviour, the range of services provided; and a centre's character and role in the social and economic life of the local community. We will consider the cumulative impact of additional shopping floorspace (whether in a centre or not) on the viability of other centres, and the cumulative impact of non-shopping uses on the character of the area.
- 12.7 The Council's area planning documents (for Camden Town, Central London, West Hampstead and Finchley Road/Swiss Cottage) and Camden Planning Guidance supplementary planning document give more detailed guidance on how we will treat planning applications for shops, food, drink and entertainment uses in particular centres, taking into account their specific circumstances. They also provide guidance on when we consider that concentrations of food, drink and entertainment uses, and reductions in the proportion of premises in retail use, would be likely to cause harm to the character, function, vitality and viability of a centre. We will take these, and any other relevant supplementary guidance into account when we assess applications in these locations. We will also take into account any history of vacancy in shop units and the prospect of achieving an alternative occupier for vacant premises when considering proposals that involve the loss of retail premises.

Food drink and entertainment uses

- 12.8 Core Strategy Policy CS7 states that the Council will make sure that food, drink and entertainment uses do not have a harmful impact on residents and the local area, and indicates that such uses are most appropriately located in Camden's Central London Frontages, Town Centres and the King's Cross Opportunity Area. It recognises both the positive and negative impacts of food, drink and entertainment uses. Whilst these uses contribute to the vibrancy and attractiveness of the borough, they can also cause harm to areas in which they are located, including potential impacts on residential amenity. Camden's image as a dynamic and attractive place is in part due to the number and quality of restaurants, bars and entertainment venues in the borough, with Camden Town and Covent Garden having particular concentrations of such premises. These play an important part in the night time economy of Camden and of London, socially, economically and in terms of job provision. However, night-time activity can also lead to problems such as anti-social behaviour, fear of crime, noise, congestion and disturbance. Please see Core Strategy policy CS9 for more on our approach to food, drink, entertainment uses in Central London.
- 12.9 Conflicts can arise as, due to the borough's densely developed, mixed use nature, much night-time activity occurs close to places where people live. In addition, large numbers of such uses can change the character of the area in which they are located and reduce its range of shops or the quality of the shopping environment. Conflicts can be made worse where a particular location becomes a focus for late night activity. The Council's area planning documents (for Camden Town, Central London, West Hampstead and Finchley Road/Swiss Cottage) and our Camden Planning Guidance supplementary document give more detailed guidance on how we will treat planning applications for shops, food, drink and entertainment uses in particular centres, taking into account their specific circumstances. They also provide guidance on when we consider that concentrations of food, drink and entertainment uses, and reductions in the proportion of premises in retail use, would be likely to cause harm to the character, function, vitality and viability of a centre. We will take these, and any other relevant supplementary guidance, into account when we assess applications in these locations..
- 12.10 Within each of Camden's centres, the Council will seek to prevent concentrations of uses that would harm an area's attractiveness to shoppers or its residential amenity. The Council wishes to see a wide range of entertainment uses within its centres, not just those that primarily involve drinking, and will encourage suitable uses that contribute towards this.

- 12.11 Where food, drink and entertainment uses are permitted, they will need to be managed to protect the amenity of residents and the potential for additional housing in the area. To ensure such uses do not harm amenity or the character of an area, either individually or cumulatively, we will consider applying controls on:
- hours of operation;
 - refuse and litter;
 - noise/vibration;
 - fumes;
 - customer area;
 - local management issues; and
 - changes of use.
- 12.12 Where appropriate, we will use planning conditions or obligations to ensure that any remaining impact is controlled. Policy DP26 *Managing the impact of development on occupiers and neighbours* sets out further measures to manage the impact of development on amenity.
- 12.13 The Council will seek to ensure that community safety issues associated with proposals are fully addressed. As well as appropriate design measures, the Council will seek financial contributions towards management arrangements, including street wardens, CCTV, town centre management and other community safety schemes through the use of planning conditions and obligations, where appropriate. Camden's Statement of Licensing Policy sets out the Council's approach to licensing and the expectations that the Council and the Metropolitan Police have for those involved in licensed activities.
- 12.14 The Council's Camden Planning Guidance supplementary document gives further borough-wide advice on the impact of food, drink and entertainment uses. Detailed guidance on how we will consider applications for such uses in particular centres is set out in our area planning documents (for Camden Town, Central London, West Hampstead and Finchley Road/Swiss Cottage).

Other town centre uses

- 12.15 A number of uses commonly found in centres (and smaller shopping parades) are not included in the A1, A2, A3, A4, A5, B1a, D1 or D2 Use Classes. These include amusement arcades, launderettes, saunas and massage parlours, car showrooms and minicab offices. While centres are generally the most appropriate location for these uses, the Council will carefully consider their potential impact when assessing planning applications to make sure that they do not harm the centre or the amenity of neighbours.

- 12.16 Particular issues that may arise include emissions and noise (e.g. from launderettes), highway and traffic problems (e.g. from minicab offices and car showrooms) and community safety and the fear of crime (e.g. from amusement arcades, betting shops, massage parlours and saunas, particularly where there are concentrations of such uses). Amusement arcades, massage parlours and saunas are unlikely to be considered acceptable in the busiest parts of centres or near to housing, schools, places of worship, hospitals or hotels.
