This drawing has been based upon a measured survey drawing by others. As a result, the precision of the dimensions indicated is dependent upon the information supplied.

While this drawing can be used as a base drawing construction purposes, it is VERY IMPORTANT that all pasions are checked carefully before any work mences or any materials are ordered.

 Where applicable, a suitable Structural Engineer and/or a Party Wall Surveyor should be consulted. Although as far as possible these instances have been indicated, this is not necessarily exhaustive and the whole 4. Unless other arrangements have been specifically made, your building contractor should serve a Building Notice, as and where applicable, to your local authority to satisfy the requirements of the Building Regulations. Your building contractor should also listes with the Building Control Officer regarding routine inspections of the work. of proposed works should be reviewed.

While this drawing can be used as a base drawing for construction purposes, your building contractor may require more information. It is therefore important to discuss, with your architect & builder together, where more detail would be appropriate. This is a 'Scheme Level Drawling' and is intended to Illustrate the general arrangement of the project proposals. As it stands this drawing does not include all of the detail necessary for a full plans building regulations application.

This symbol indicates that structural calculations i structural design may be required, both of which should be undertaken by a suitable structural engineer. Your designer can help point you in the right direction.
