Subject: 36 Redington Road - Planning Application 2015/3004/P

Dear David Peres Da Costa

20115/3004/p 36 Redington Road NW3 7RT

I refer to our letter of objection to the above planning application which has now appeared on the web-site. I would be grateful if you could confirm the following;

1. That one of the Council's tree officers will be asked to advise on the impact of the proposed development on the trees.
2. That the Council will commission an independent Basement Impact Assessment as well as an FRA.
3. That the Council will ensure that the route of the River Westbourne will be investigated. If as our consultants say it runs through the proposed development, this would have a major impact on surface water drainage as well as ground water levels and flows.
PLEASE NOTE that Figure 2 which shows the route of the river, goes with the report on ground water and surface water and should have been inserted on the web-site at the end of Part 1 (of our objection) and not as it has been at the end of the geological report in Part 2 .

Regards
Philip and Elizabeth Beckman
