Reconstruction proposals
For the front garden
3 GAINSBOROUGH GARDENS
London NW3 1BJ
July 10th 2015

Materials proposed for paved areas – york stone banding, handmade bricks set in herringbone pattern laid on weak mix sand/cement and soil
– a permeable base throughout.

Reclaimed granite setts of varying sizes tamped into sand/soil mix to allow for general drainage and for ingress of fine mosses and erigeron daisies .
