2015/3272/P	Michael Boylan	1 - 13 Miller Street	04/08/2015 16:31:51	COMMEMP ER	I support this application because I believe adding two new residential units will have a civilising affect on the anti-social behaviour (street-drinking, fly-tipping, using the street as a toilet) often encountered in Miller Street. Converting existing flush doors to new glazing will also improve the façade of the building.
