2015/3582/P	Rosanna Houston	1st floor flat 84 Savernake Road London NW3 2JR	02/08/2015 20:47:52	OBJ	<p>I would like to object to the above planning application to 82C Savernake Road. I am currently a tenant residing in the first floor flat of number 84.</p> <p>The reasons for my objection are as follows:</p> <ol style="list-style-type: none">1. The erection of an extension to the 3rd floor will block out a significant amount of natural light to both number 82 and 84, in particular the 2nd/3rd floor flat in 84.2. It is inconsistent with the build height of other houses on the street - although there is an extension on the 3rd floor of 84 this does not go out as far as the proposed plans for 82c.3. The plans are excessive, potentially leading to over crowding in the property.4. To have 4 bedroom/3 bathroom flat on the top 2 floors would add substantial structural burden to the existing building.

2015/3582/P	Raffaele Di Landro	84a Savernake Road London NW3 2JR	05/08/2015 21:43:50	OBJ	<p>Dear Ms Phillips,</p> <p>I am a neighbouring resident at 84a Savernake Road. I have only returned this afternoon from a vacation and therefore have just seen the notice of the planning application to extend 82C.</p> <p>I wish to object to this application on the grounds that it will mean an increase in the occupants overlooking into my back garden.</p> <p>The blocking of the sun will also further affect the light (also increasing the risk of moss build up on the rear lower roof extension) which would be overshadowed by this extension.</p> <p>Furthermore,</p> <p>I have also noticed for some time now, that works have commenced on the building and the flat roof (which appears not to be safe, as it is not protected with railings) has been used as dumping ground for debris and rubble. Some of this is also left in the front garden of 82 Savernake Road and also in front of 84 (today a large panel of plaster board has been dumped by the builders). Not only is this contravening health & safety but it is also a blatant disregard to the cleanliness of neighbouring properties and in particular the roof windows to the rear of my property. 3rd time in 6 weeks that they will need to be professionally cleaned!</p> <p>Finally, I know that the property has recently been sold on. Beforehand this area was not designed as a roof terrace but for some reason it is now being used as one?</p> <p>I do not see any application for the conversion to a roof terrace and wonder if it is even fit for purposed let alone permission being granted for it to be allowed as an outside space. Recent tenants were constantly sitting on the ledge of this roof (clearly quite dangerous).</p> <p>Best Regards</p> <p>Raffaele Di Landro</p>
2015/3582/P	Juliet Rodgers	84 Savernake road London NW3 2JR	05/08/2015 22:35:15	OBJNOT	<p>I am submitting an objection to this planning application as the direct neighbour (top maisonette of 84 Savernake) who would be adversely affected by this proposed development. The proposed extension would increase the size of the building beyond what is common in this area and on this street. It would considerably block out light to my own home - including my roof terrace, and bedrooms - and overlook my property. These houses are already occupied to maximum capacity; four bedrooms is excessive for a top floor flat in such a conversion and creates too high a density, in an area that is already at the limit of occupation given. I think the plans represent over-development and are entirely unnecessary. I strongly object to the proposals.</p>
