2015/4094/P	Ethan Sassower	32 & 32A Grove Terrace London NW5 1PL but live at: 5 Mount Vernon London NW3 6QS	07/08/2015 15:14:11	OBJ	<p>Dear Sirs</p> <p>I am the owner of 32 and 32A Grove Terrace, which together form the building directly across the road (i.e. corner of Woodsome and Highgate Roads) from the Bull and Last pub.</p> <p>Mine is a tall, top-heavy corner period property and the standards of construction are unlikely to match those of today. I am concerned that the effects of excavating (and possible underpinning) the pub's basement and new foundations for the proposed side extension would cause damage to my building as a result of the vibrations, changes to the surrounding soil and underground water, etc.</p> <p>Also it is of course a residential area and I am concerned about the levels of noise and disturbance that such a project would entail.</p> <p>Yours faithfully Ethan Sassower</p>
2015/4094/P	Declan O'Brien	11 Croftdown Road London NW5 1EL	03/08/2015 12:23:51	OBJ	<p>The design of the extension is not in keeping with the character of the area and needs to be made more sympathetic, with a properly pitched, slated and fully pitched roof.</p>
