2015/4417/T	SUSAN ROSE CHAIR HIGHGATE CAAC	HEATH WINDS Merton lane N6 6NA	04/08/2015 09:29:52	COMMENT ALL	the number of trees to be felled is high including 3 substantial oaks. The reasons given are not strong. This part of the Conservation Area derives its character from its wooded nature and the removal of so many trees may affect adversely views from the Heath. The tree officer must visit to assess validity of the application and necessity for extensive work of this kind.
2015/4417/T	SUSAN ROSE CHAIR HIGHGATE CAAC	HEATH WINDS N6 6NA	10/08/2015 14:30:58	JUST	The documentation supplied with the application is inadequate since no good reasons are give for the felling of mature oaks and other trees in a sensitive part of the Conservation Area, the character of which is largely determined by its wooded nature. The tree officer MUST visit and a more measured assessment made of the necessity, if any, of extensive tree works of this kind.
